Navy League History Project

The Navy League History Project is intended to extend the materials covered in the Navy League History Book to include more material on Council history; to that end, we need your assistance, input and content submissions. The Navy League history project will be a digital archive of materials collected from records at headquarters as well as from field activities. Many of the photos and videos will eventually be posted online. The major categories for organizing content will be as follows: National Navy League, Navy League Councils, Legislative Affairs, Adopted Ships, and Youth Programs. The primary content for Council submissions should be organized as:

Administration: council reports, board members, letters of association

Finance: Tax exempt status, grants, fund raising

Education: How Councils educate the public, your community

Programs: Significant programs, national meetings hosted

Publicity: Significant photos and event announcements

Please let us know if you have a Council Historian. Submit your historian's name and contact information, as well as content to NLUSHistory@cs.com. If you have questions, please contact Jim Semerad at (248) 467-1204.
